# Welcome!

In the age of [TikTok](#) and TikTok, posts become outdated in minutes.  
In the age of AI content, we do not know where the truth is.

What is the place where you can go to learn something fundamental?

[Startupswiki.org](#) is a project that aims to provide hand-written knowledge about the startup world. Terms, stories, marketing strategies, history, and product-building aspects that are actual forever.

The goal of this project is not only to educate beginning and amateur startup founders but also to store this huge and beautiful part of the culture for future generations of makers.
